

**AMENDMENTS TO THE CLAIMS:**

**Cancel claims 1 through 20 and insert the following new claims 21 through 40:**

1. through 20. (Cancelled)

21. (New) 1. A portable light for presenting an illuminated illustration, which comprises:

a.) a portable light fixture, including a housing, at least one bulb, a power supply, an electrical connection between said power supply and said at least one bulb, and an on/off switch located within said electrical connection;

b.) a first cover connected to said housing, and covering said at least one bulb, said first cover being at least translucent, wherein at least one of said housing and said first cover includes attachment means for removably attaching a second cover thereto and at least partially atop at least part of said first cover; and

c.) said second cover having a distinguishable illustration thereon, said second cover being removably attached to at least one of said housing and said first cover, and being at least partially atop at least part of said first cover, and

wherein said second cover is substantially transparent, said first cover is at least translucent of a first color and said distinguishable illustration of said second cover is translucent and of a second color, different from said first cover.

22. (New) The portable light of claim 21 wherein said housing includes attachment means for removably attaching said second cover thereto.

23. (New) The portable light of claim 21 wherein said first cover includes attachment means for attaching said second cover thereto.

24. (New) The portable light of claim 23 wherein said attachment means is a linear track and said second cover is a linear strip adapted to slide into and out of said track.

25. (New) The portable light of claim 21 wherein said distinguishable illustration is selected from one or more words, a logo, a stylized character and one or more numbers.

26. (New) The portable light of claim 21 wherein said first cover is a circular cover.

27. (New) The portable light of claim 22 wherein said first cover is a circular cover.

28. (New) The portable light of claim 23 wherein said first cover is a circular cover.

29. (New) The portable light of claim 21 wherein said power source is at least one battery.

30. (New) The portable light of claim 22 wherein said power source is at least one battery.

31. (New) A portable light for presenting an illuminated illustration, which comprises:

a.) a portable light fixture, including a housing, at least one bulb, a power supply, an electrical connection between said power supply and said at least one bulb, and an on/off switch located within said electrical connection;

b.) a first cover connected to said housing and covering said at least one bulb, said first cover being at least translucent, wherein at least one of said housing and said first cover includes attachment means for removably attaching a second cover thereto and at least partially atop at least part of said first cover;

c.) said second cover having a distinguishable illustration thereon, said second cover being removably attached to at least one of said housing and said first cover, at least partially atop at least part of said first cover; and

d.) wall attachment means connected to said housing;

wherein said second cover is substantially transparent, said first cover is at least translucent of a first color and said distinguishable illustration is translucent and of a second color, different from said first cover, and,

wherein a user may attach said second cover with said distinguishable illustration to at least one of said housing and said first cover of said portable light, and attach said portable light to an outside wall at night to signal a need.

32. (New) The portable light of claim 31 wherein said housing includes attachment means for attaching said second cover thereto.

33. (New) The portable light of claim 31 wherein said first cover includes attachment means for attaching said second cover thereto.

34. (New) The portable light of claim 33 wherein said attachment means is a linear track and said second cover is a linear strip adapted to slide into and out of said track.

35. (New) The portable light of claim 31 wherein said distinguishable illustration is selected from one or more words, a logo, a stylized character and one or more numbers.

36. (New) The portable light of claim 31 wherein said first cover is a circular cover.

37. (New) The portable light of claim 32 wherein said first cover is a circular cover.

38. (New) The portable light of claim 33 wherein said first cover is a circular cover.

39. (New) The portable light of claim 31 wherein said power source is at least one battery.

40. (New) The portable light of claim 32 wherein said power source is at least one battery.
